the senseless jargon of a fool; the loathesome utterances of a political prostitute; the foul and rotten mouthings of a liar as they appear in the following article from the Philadelphia Bulletin:

It is stated that John C. Breckinridge called at the White Housey resterday, to pay his respects to mode of intensifying the testimowas not a vistors' days, and the fellow found the door closed in his face. Barefaced impudence ex-hausted itself in this performance of the perjured Vice-President. If there were any differences in the shades of moral turpitude that blackened the names of the leaders of the rebellion, that of John C. Breckinridge is darker than those of Davis, Lee and all the rebel con-clave beside. A special oath was resting upon his conscience, resting upon his conscience, and a special act of diagraceful perjury was needed before he could lend his aid to destroy the Union. But the oath was nothing to him, and the crime of special per jury was an easy one to him. Higher in office than any other who participated in the wickedness of the rebellion, his fall was deeper, and his disgrace darker and more enduring. But the treachery of Andrew Johnson bears its legitimate fruits, and the honors paid by that poor apostate to the crime of treason, have been graciously accepted even by Breckinridge, and the unrepentant traitor and rebel walks coolly up to the White House to pay his respects to honest Ulysses S. Grant, as if he were a gentleman and had a right to be received as such.

A popular negro preacher in Kentucky is losing his audiences from the superstition which attaches to him as an unlucky man. Once he was blown up by the explosion of a can of powder; again, his church was struck by ightning during services; and a few days ago the floor fell in and killed several of the audience. "Something wrong, sure," they

IT is astonishing how easily one can save enough to pay for a policy in a good insurance company if he will deny himself a few luxuries in the way of cigars and liquors, or in other superfluities. By this saving he can ensure the future comfort of his wife and children, or others who are dependant upon him for support. To neglect this is almost criminal. The North America Company offer unusual inducements to insure, as their advertisement well shows.

The general agent for this State, Major G. P. Theobald, is well and favorably known here and all over our State. His upright and manly character, wonderful energy and business enterprise, exactness in business matters and perfect reliability, have made him very successful, and won to him hosts of friends.

The local agents, at Vicksburg, are Measrs. Page and Theobald and both these gentlemen have thorough experience in insurance matters and enjoy the confidence of community.

The first item includes the "Misalonary Bishop" in Liberia, and it should be remarked that two of the other nine are physically disabled, so that the episcopal labor of the Church is being performed by seven effective bishops.

The total number of itinerant ministers, this year, including the bishops, is 3339, an increase of 349. During the year 655 preachers were received into the several annual conferences on trial, 82 died, 88 located. Of the present number 7,424 are in the effective work, 481 supernumerary, and 925 apperanunated. These figures show an in-crease of 294 effective men, a de-crease of 10 supernumeraries, and an increase of 65 in the superanunated list.

The total membership, lay and ministerial, is 1,318,117; a net increase of 44,613. The number of deaths the last year was 13,636, of which number 82 were travelling ministers. There are now 82 annual conferences, 12 of which, besides the old conferences, including Maryland and Virginia, are in what was slave territory, and on ground now occupied by the Methodist Episcopal Church, South. In these conferences there are 169,263 members, including probationers, wiff shows an increase, during the year, of 26,623. This will be accepted by the Church as a very creditable exhibit, when all the circumstances are considered.

The five German Conferences show a steady growth, the total increase being 2984. The smallest increase is in the Eastern German Conference, and the largest in the Northwest, which we suppose is accounted for to some extent by the course of German emigration. The Conference in Germany and Switzerland shows an increase of tablishing the company named, and 623, with a total membership of

The Conference in our immediate vicinity present some very suggestive figures. The Kentucky Conference has an increase of 2,158; the Ohio Conferences increase, 4,636; and those of Illinois lone, show a loss of 62. Farther West there is a steady gain. The two Missouri Conferences advance 4.349, and Kausas and Nebraska,

As shown in the table above, there are in the connection 12,048 churches, which is an increase of 356 for the year, nearly one a day. The following story is told by Rev. J. Hyatt Smith :

"We stopped at Syracuse, N.Y. for dinner. You remember the railrood depot, centrally situated, with its eastern and western entrances exactly alike—as much so grow "small by degrees and beau as the two ends of a car. After tifully less." They had witnesses we had dined, the depot master informed me that we had seventeen minutes to spare before the departure of the Eastern train. This, thought I, will give me an opportunity to see the city and a glorious chance for a smoke, provided a clergyman could be tempted into such a piece of wasteful and worldly amusement. I sauntered forth, and, after an absence of witnessed my final triumph, exactly thirteen minutes, having how gracefully I was welco enjoyed a delightful and soothing stroll, I was leisurely returning, watch in hand, when, to my sud den astonishment, I beheld the train slowly gliding out at the other end of the depot, and in-

creasing its speed at every puff of its gigantic locomotive. Here indeed was a "call" that admitted of neither correspondence nor delay: there was no time for "taking it into consideration." So, without conferring with flesh and blood, I put off like a skyrocket with a double fuse.
For a moment I thought I had it all my own way; I thought I was gaining ground, although I knew I was lesing wind. I was

encouraged in the race by sundry helpful fellows who kept crying out as I passed, "go it gaits "plucky boy," "he sin't left, O no!" and other well-meaning and benignant exhortations. Though they intended, perhaps, helping me over the course, I found the more they shouted the less inclined I was to run, and the more decidedly did the locomotive make terrible headway against me. To give up the chaise; to submit to the chagrin of being left; to lose my party and my passage; to meet with disappointment and not to meet with friends, all this was bad enough; but the thought of encountering, all the way back to the depot, that line of interested individuals who with their cheering exclamations had so feelingly encouraged me on my outward journey, this was the bitterest pill

in this unexpected dose. But it must be done; so taperoff gradually I gave up the contest and turned back to meet my fate, and-if I could find himthe depot master whese blundering statements were the cause of all my trouble. Without search that individual advanced to greet me with the bland recognition of a fact that no one could well deny. "Well, you got left, did you?" replied only with the resentment of a "silencing eye.,' If I looked as I tried to look, my photograph taken at that instant would hardly be chosen to grace an album gallery of "eminent divines .--Several by-standers seeking information, asked, with a show of confidential interest in my case, on what wise the thing happened? and others, wishing "to point a moral," advised me to be on hand a little earlier next time. With returning breath, relief and words came together, and I squarely charged the railroad official with all the blame. I spoke of his incompetency in no measured terms recalling how that after I had placed my party in the car he had assured me that there were full seventeen minutes to spare before the train went out; "while here," said I, with a triumphant exhibition of my watch, "the seventeen minutes are even now barely up, and yet the train is gone out of After no little hot shot cast back

and forth, with the usual variations and final perorations of "you did and you didn't,,' "you're another, etc.," I asked him whether I would be risking another chance of being left if I depended upon him to give me the exact hour of the departure of the next Eastern train. 'Eastern!" exclaimed he. "Yes, Eastern," I replied, with a decid-"Why," quoth he, "the tion. train you've just been chasing with such good luck wasn't an Eastern train, but the Western Express!" With much and interesting confusion and excitement, I stammer ed out, "then where in Joppa is not disposed of, are seven thousand dollars. the Eastern train?" "Why, there it is," replied he, "just getting under way at the other end of the depot; leg it, or you'll lose that," If ever I made Dexter time, I made it then. I passed right through the depot like the wind. I felt as if I was all legs. One glance, however, at the rear door of the last car as I was nearing it came near being too much for me. friends, whose forms and faces seemed bursting with poorly suppressed and ill-timed mirth.

As I reached safely the platform, the fire that opened upon me could only be equaled for its merciless effect by the fire in the rear, from which I had providentially fied. I heard jibes, and jeers. I heard the hoarse laugh.
